

Autoresearch Progress: 7 Experiments, 4 Speed Improvements

One trajectory throughout · 299 calls / 598 five-day records · 365.25 days/year

Trials 0-4: 1 logical core, 8 CPU threads. Trials 5-6: 2 CPU threads per rank; 1 → 4 logical cores.

Four-core trial splits two blocks; ranks cooperate on one rollout. Compilation/warmup excluded. Accuracy unverified.
